

BMC Certified Associate: Control-M 21.x for Operators Online Exam

[Learning Path >](#)

Certification Code: AUTO-CERT-CMFO921-CA

Modality

Online – Non-Proctored

Duration

2 Hours

Applicable Versions

Control-M 9.0.21.300

Target Audience

- Operators

Purpose of Exam

Companies deploying and using Control-M realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: Control-M 21.x for Operators Online Exam** will validate the technical competencies needed to successfully operate and monitor jobs in the Control-M environment.

Skills Tested

Participants will be tested on their knowledge of the following:

- Basic Control-M operations
- Use different Control-M interfaces for monitoring the jobs in Control-M environment
- Describe the different Control-M Roles and their responsibilities in the Control-M environment
- Monitor and manage job processing definitions in the Control-M environment
- Use the Properties pane to access job details
- Monitor Viewpoints and Services
- Use Find functionality to search for jobs
- Use Neighborhood functionality to find job dependencies
- Use Alerts panel to monitor and manage alerts
- Work with Historical and Archived data

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- Control-M 21.x: Fundamentals Using (WBT)
- Control-M 21.x: Fundamentals Operating (ILT, VILT)
